

Amendments to the Drawings:

Proposed amendments to Figure 19 are attached. In particular, the label "CONTROL LOGIC" was added to block 130, the label "CAN XCVR" was added to blocks 530, the label "CAN CONTROLLER" was added to blocks 532, and the label "MICROCONTROLLER" was added to blocks 534 and 536. These terms are used in the description of Figure 19 at page 23. No new matter was added through these amendments.

Remarks

Claims 14-15, as amended, are currently pending in this application. In an Office Action dated June 2, 2005, the Examiner indicated that claims 14 and 15 would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claim. Claims 14-15 have been so amended to provide for speedy issuance of the allowed subject matter.

The Examiner objected to the specification. Applicant believes the proposed amendments to the specification adequately address the Examiner's objections.

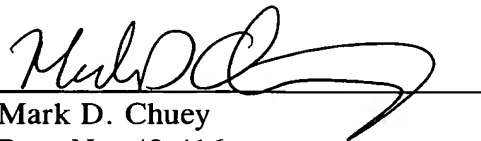

The Examiner objected to Figure 19 as lacking certain labels. Applicant believes the proposed amendments to Figure 19, attached, provide sufficient labeling to overcome the objections.

Pending claims 1-13 and 16-33 were rejected by the Examiner as either anticipated or as obvious in view of cited art. Applicant reserves the right to pursue the canceled claims in a continuation application.

Applicant believes claims 14 and 15, as amended, meet all substantive requirements for patentability. A check in the amount of \$1020 is enclosed to cover the Petition fee. Please charge any additional fees or credit any overpayments as a result of the filing of this paper to Deposit Account No. 02-3978.

Respectfully submitted,

MARK D. CHUEY
